

Summary IMPACT PI meeting February 13, 2014

Present: Phil, Steve, Nina, Henrik, Jan H, Jan B, Andreas, Jonna, Tayana, Alysa, Bru, Peter, Stefan, Alejandro, Barbara, Angelien

1. All action points are listed as agenda points.

2. Update Website

The patient part of the site is looked up 909, the researchers part 878 and the Dutch research part 290

Angelien is working on website but the work she has done is still hidden for all public users. When the collaborating part is ready she will make it visible for the public users. For the contact information you will get a login. She has received nearly all information but she misses the contact information from Henrik and from the Brazilian site.

For the phenotypic database (Mail send by Janneke) we miss the data of Norway, Spain and the USA. Alysa would like to have more time for her data. Andreas would like to add new patients, this is still possible. The deadline for sending the data is the end of March. Then we will freeze the data and release it on the website.

3 ECNP network

Barbara thanks everybody for their comments.

Suggestion/comment from Jan:

- The majority is from western Europe and we see it as a target to get participants from other parts of Europe. Jan is in contact with Jannos Harold.
- Imbalanced between adult and child psychiatry (textual thing)

In the next two weeks Barbara will update the proposal . If you want to participate this proposal then you have to be part of the ECNP Network.

4. Horizon 2020

b. PHC3 call how to move forward will be discussed on Thursday the 20th of February at the TC organized by Andreas

a. ITN preparation; Ideas for PhD project

Requirements are: the project must be based on existing big datasets. (Foreigner PhD cannot recruit patients). The PhD student needs to come from another country, Internship in a company during PhD. 6 months internship will be not necessary, a intership between finishing PhD and writing thesis will maybe also possible.

Companies for a collaboration are: Lilly, Jan will explore this, cubiTech , Phil will explore this. Juliq, Andreas will explore this, Cambridge , Phil and Alysa will get in contact with Jennifer Barnett, Comments: ESR4 pharmacological chaporones instead of, Alejandro misses statistics.

Barbara would like to know who is still interested? Early April is the deadline.

5 IMPACT contract

Barbara will send an updated version of all comments.

6 aExome chip(Tayana)

Replicate the first two SNPs while we are waiting for the results from Ben Neale
Henrik has no DNA available for genotyping, and no genotyping data, Andreas has 1000 samples/genotypes available for replication. Brazil has 500 cases and 600 controles. The DNA is in the Netherlands. Nina will discuss this with Claiton. Uk has cases but no controls. Tayana is analyzing the rare variants and performing an enrichment analysis. One hit passes the overall genomewide threshold. Tayana will send to everybody the results sofar.

6b.Others

Nina has looked at the IMpaCT database and selected genetic and fenotypic variants. Send Nina the data of the seleted fenotypic and genotypic variants and if she can use the DNA.

DRD4 analysis(Interaction analysis how to go move forward

Inventorise what is there and what is available and see if we have enough power otherwise we have to genotype the available samples.

7 IMpACT meeting 2014

Airport Meeting or a meeting at the university of Frankfurt. University of Frankfurt is nearby the airport. Andreas will organize this meeting.

Agenda point	Task	Who	Deadline
2	Contact information website	Henrik, Claiton and Eugenio	Before next meeting
2	Open website regularly to improve ranking	All	Continuously
5	IMpACT contract update	Barbara	Asap
2	Send information for the phenotypic database of IMpACT	Andreas, Alysa, Jan, Stefan, Bru	Deadline end of Marz
4b	ITN preparation, contact companies for collaboration	All	Asap
6a	Distribute table with findings to all	Tayana	Asap
6b	Send Nina the information available in your samples for the selected variants and from DRD4	all	Before next meeting
